

SCIENCE ACTIVITIES

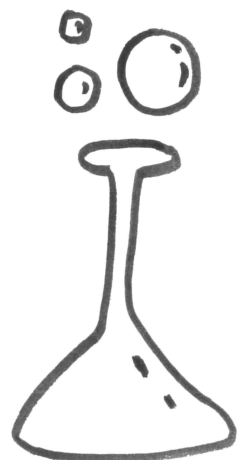

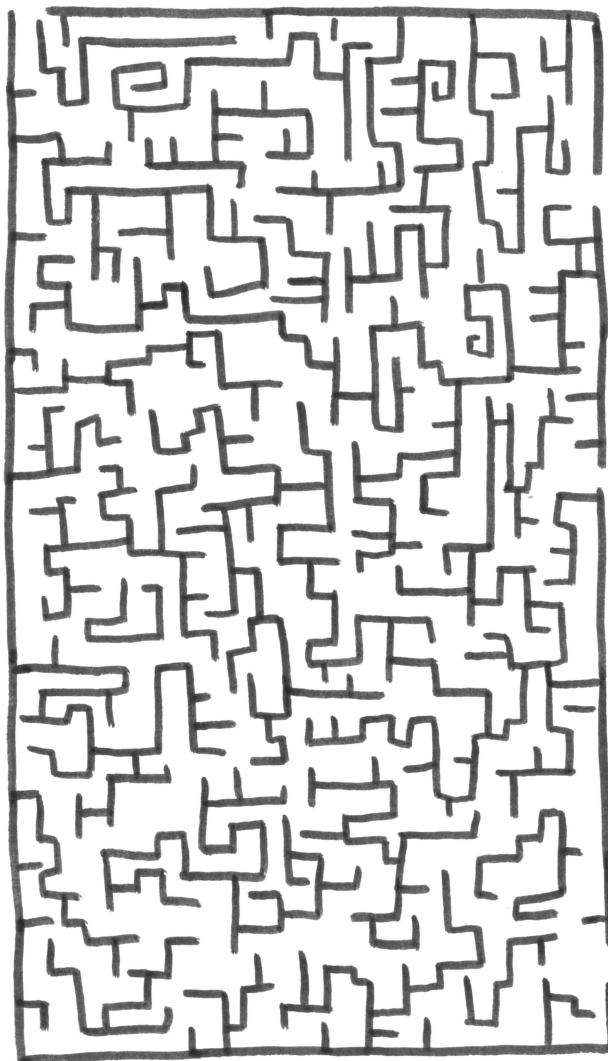

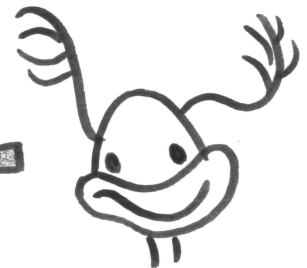

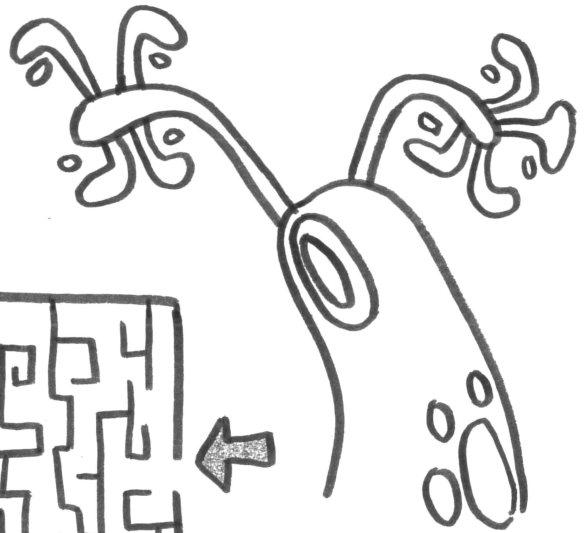

In the following pages you will find a set of activities designed for school teachers to do in the classroom after reading the book. We would also like to encourage parents to do these activities at home with their children.

Each activity has instructions and is designed to be coloured in.

MAZE GAME

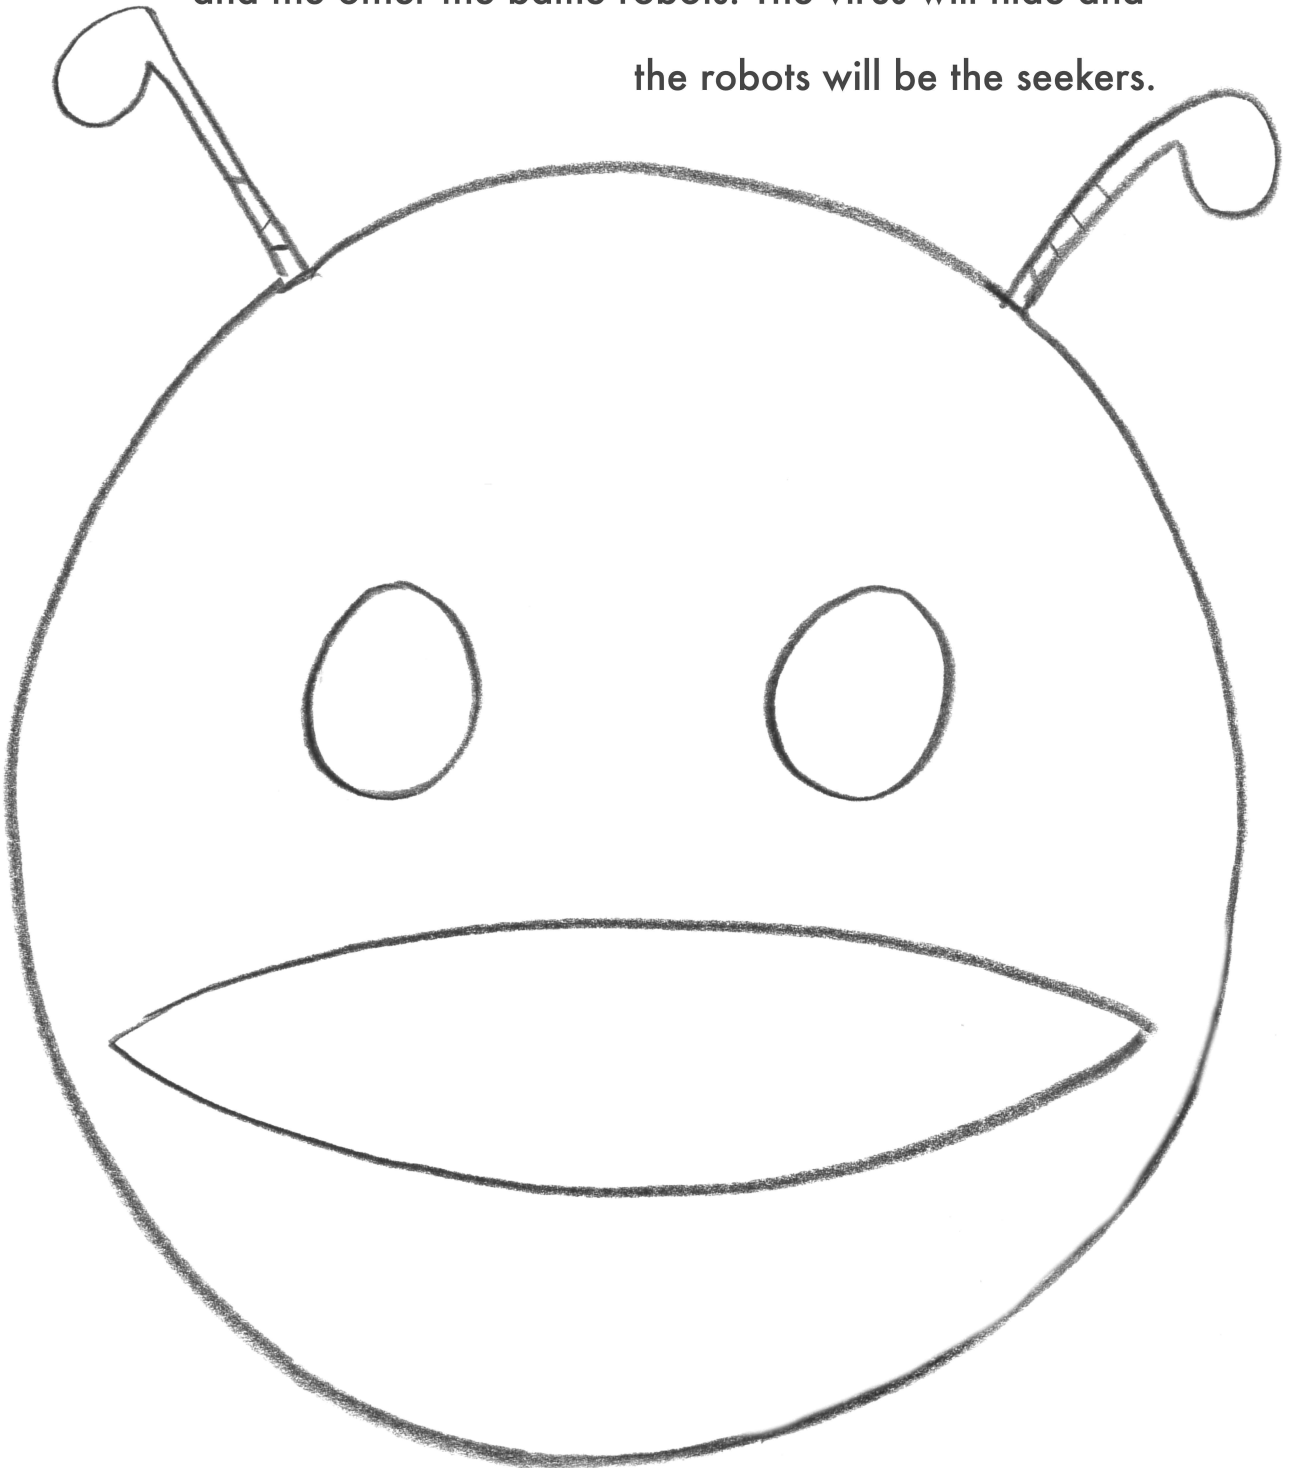

Can you find the path for each BATTLE ROBOT

to the vaccine?

MASQUERADES

This is a hide-and-seek role game. One group will be the virus and the other the battle robots. The virus will hide and the robots will be the seekers.

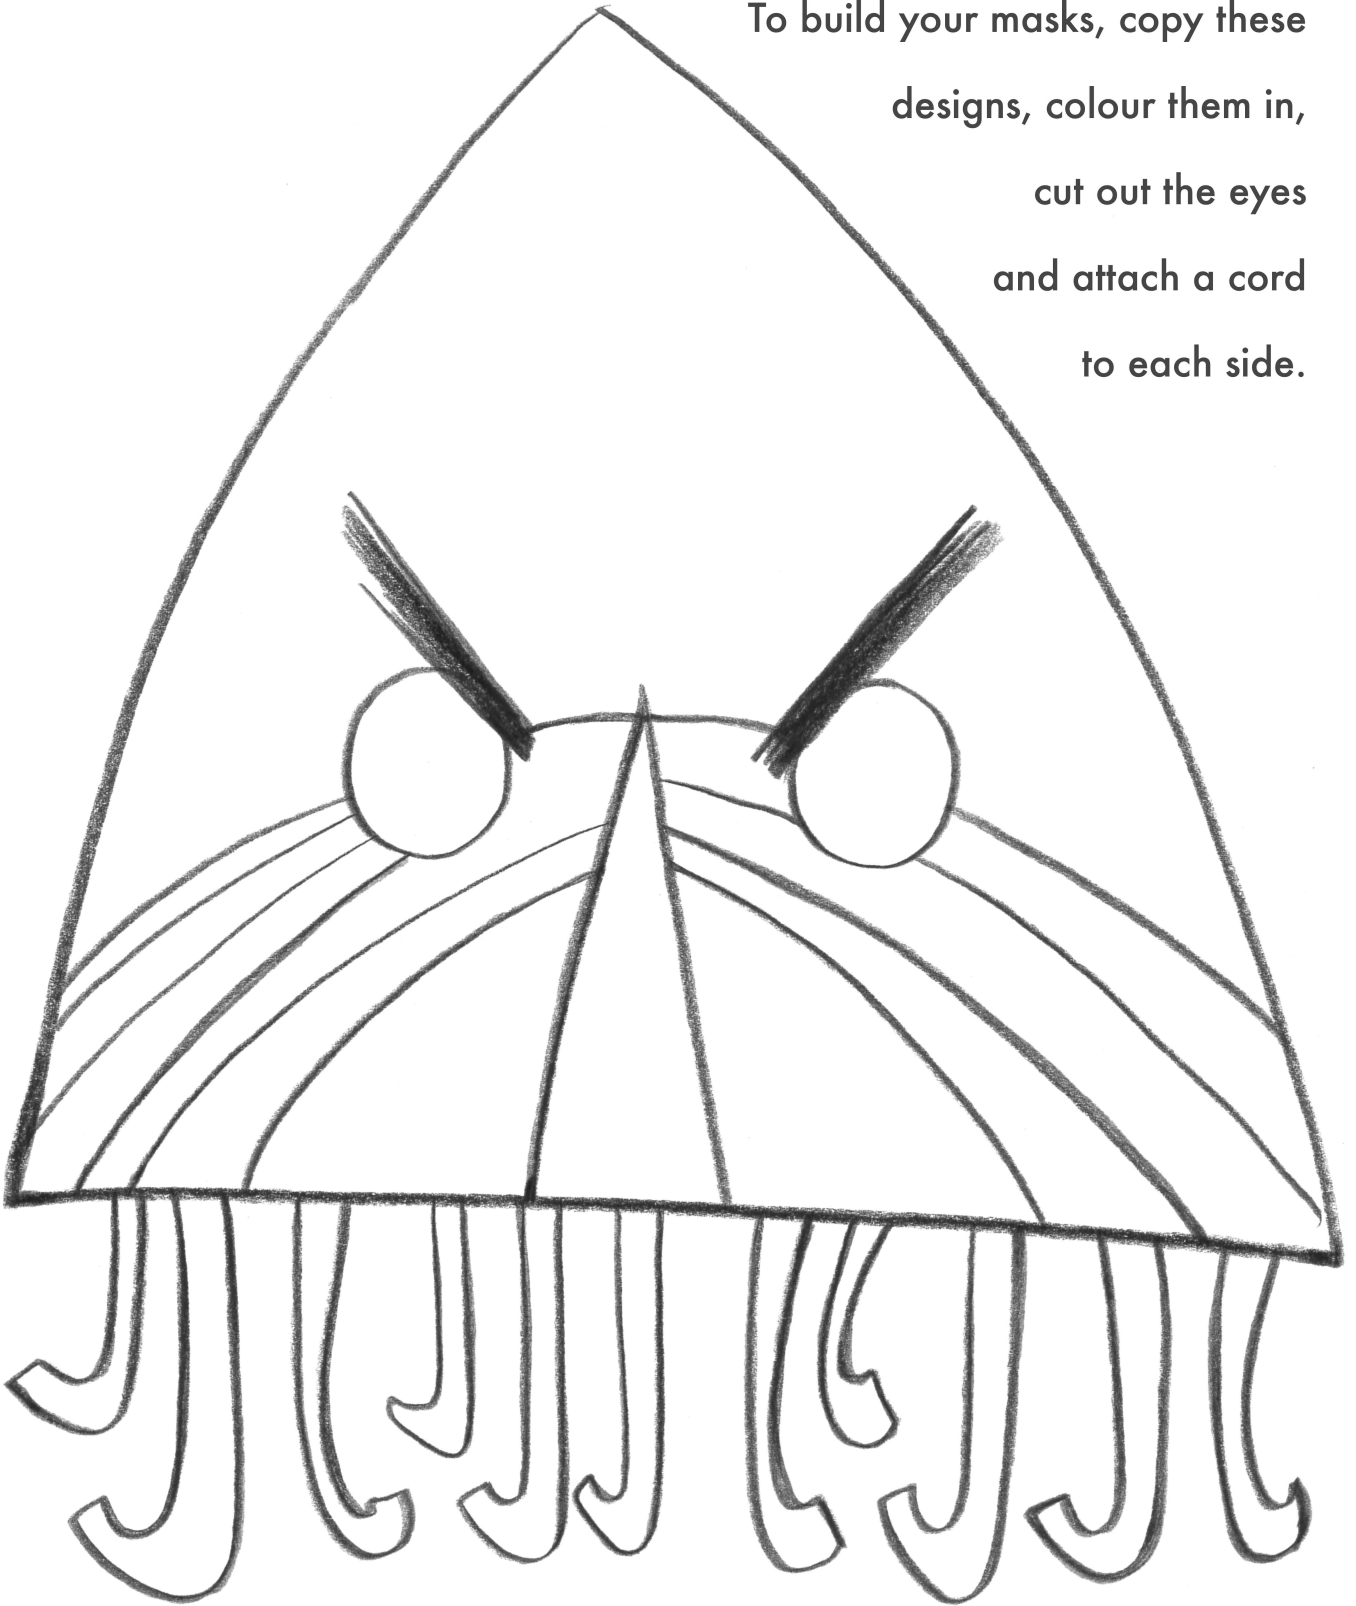

VIRUS 1

Use these designs to make masks for each group.

MASQUERADES

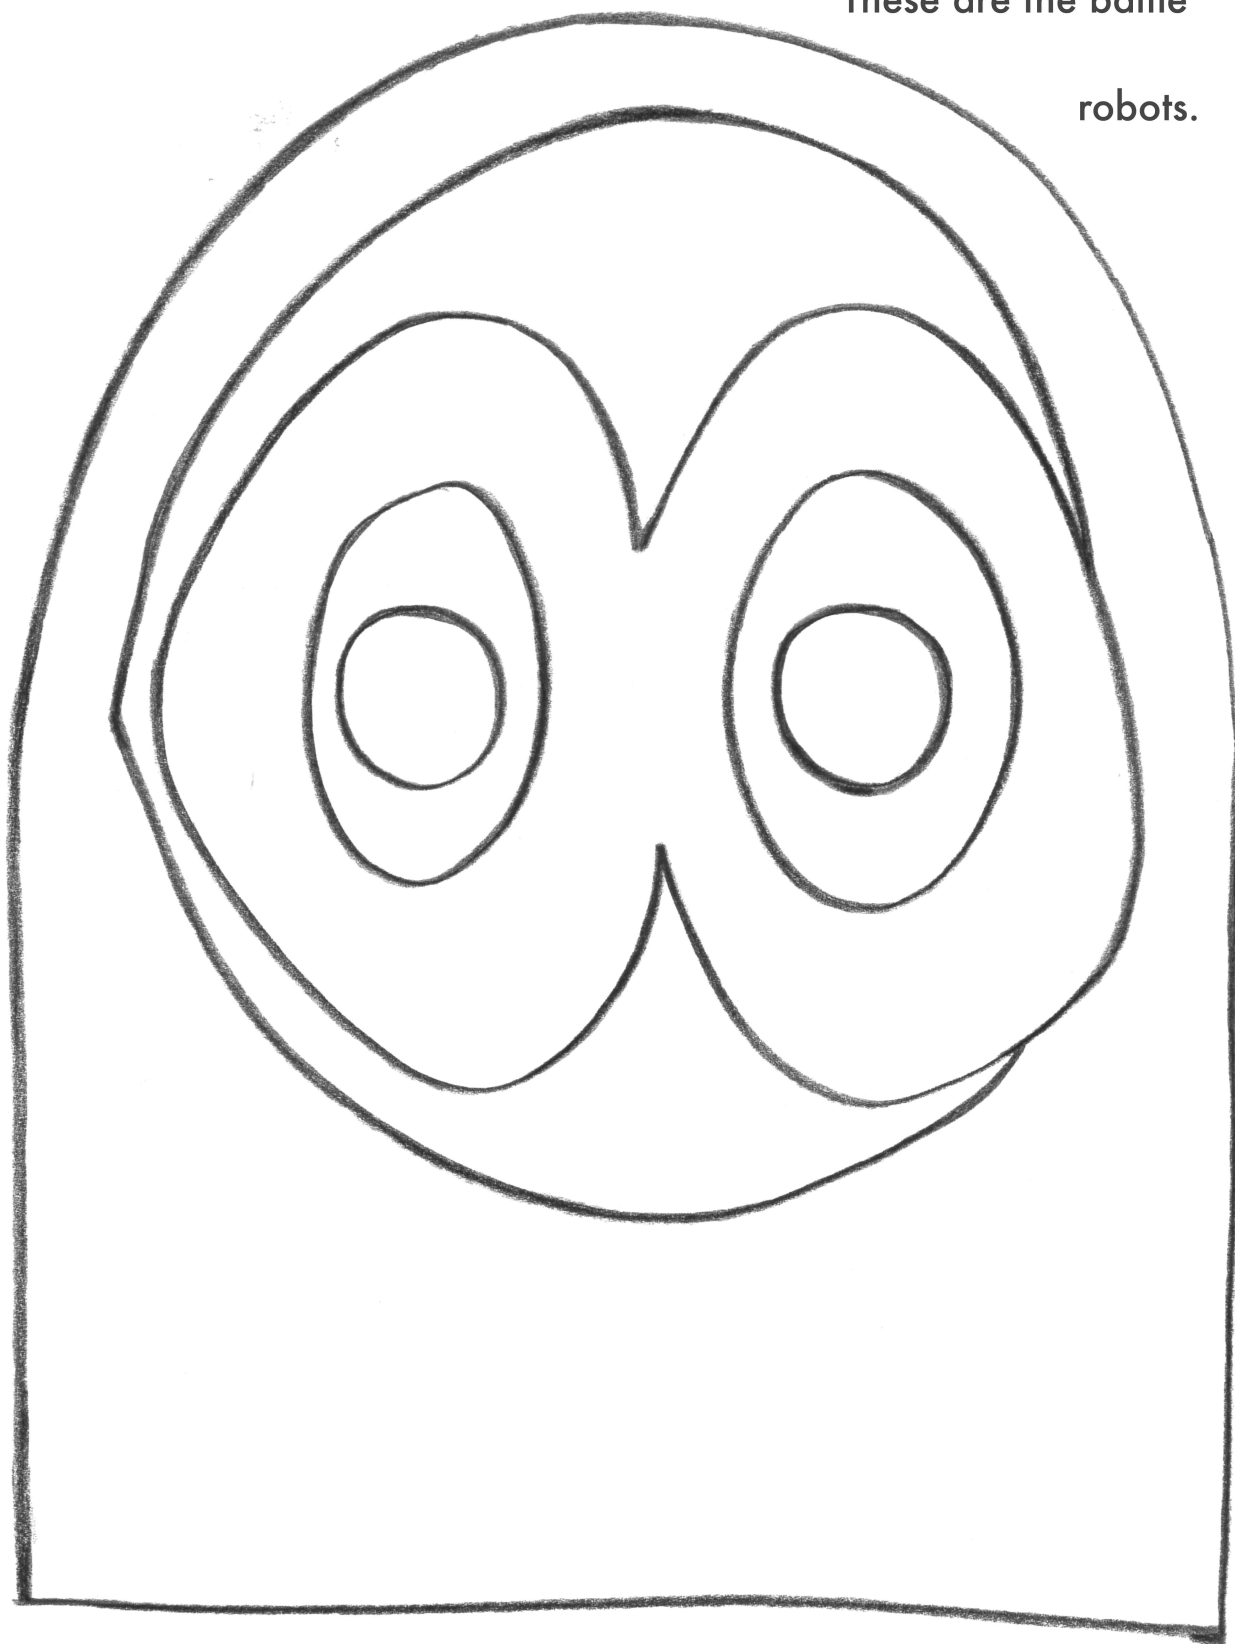

To build your masks, copy these designs, colour them in, cut out the eyes and attach a cord to each side.

VIRUS 2

MASQUERADES

These are the battle
robots.

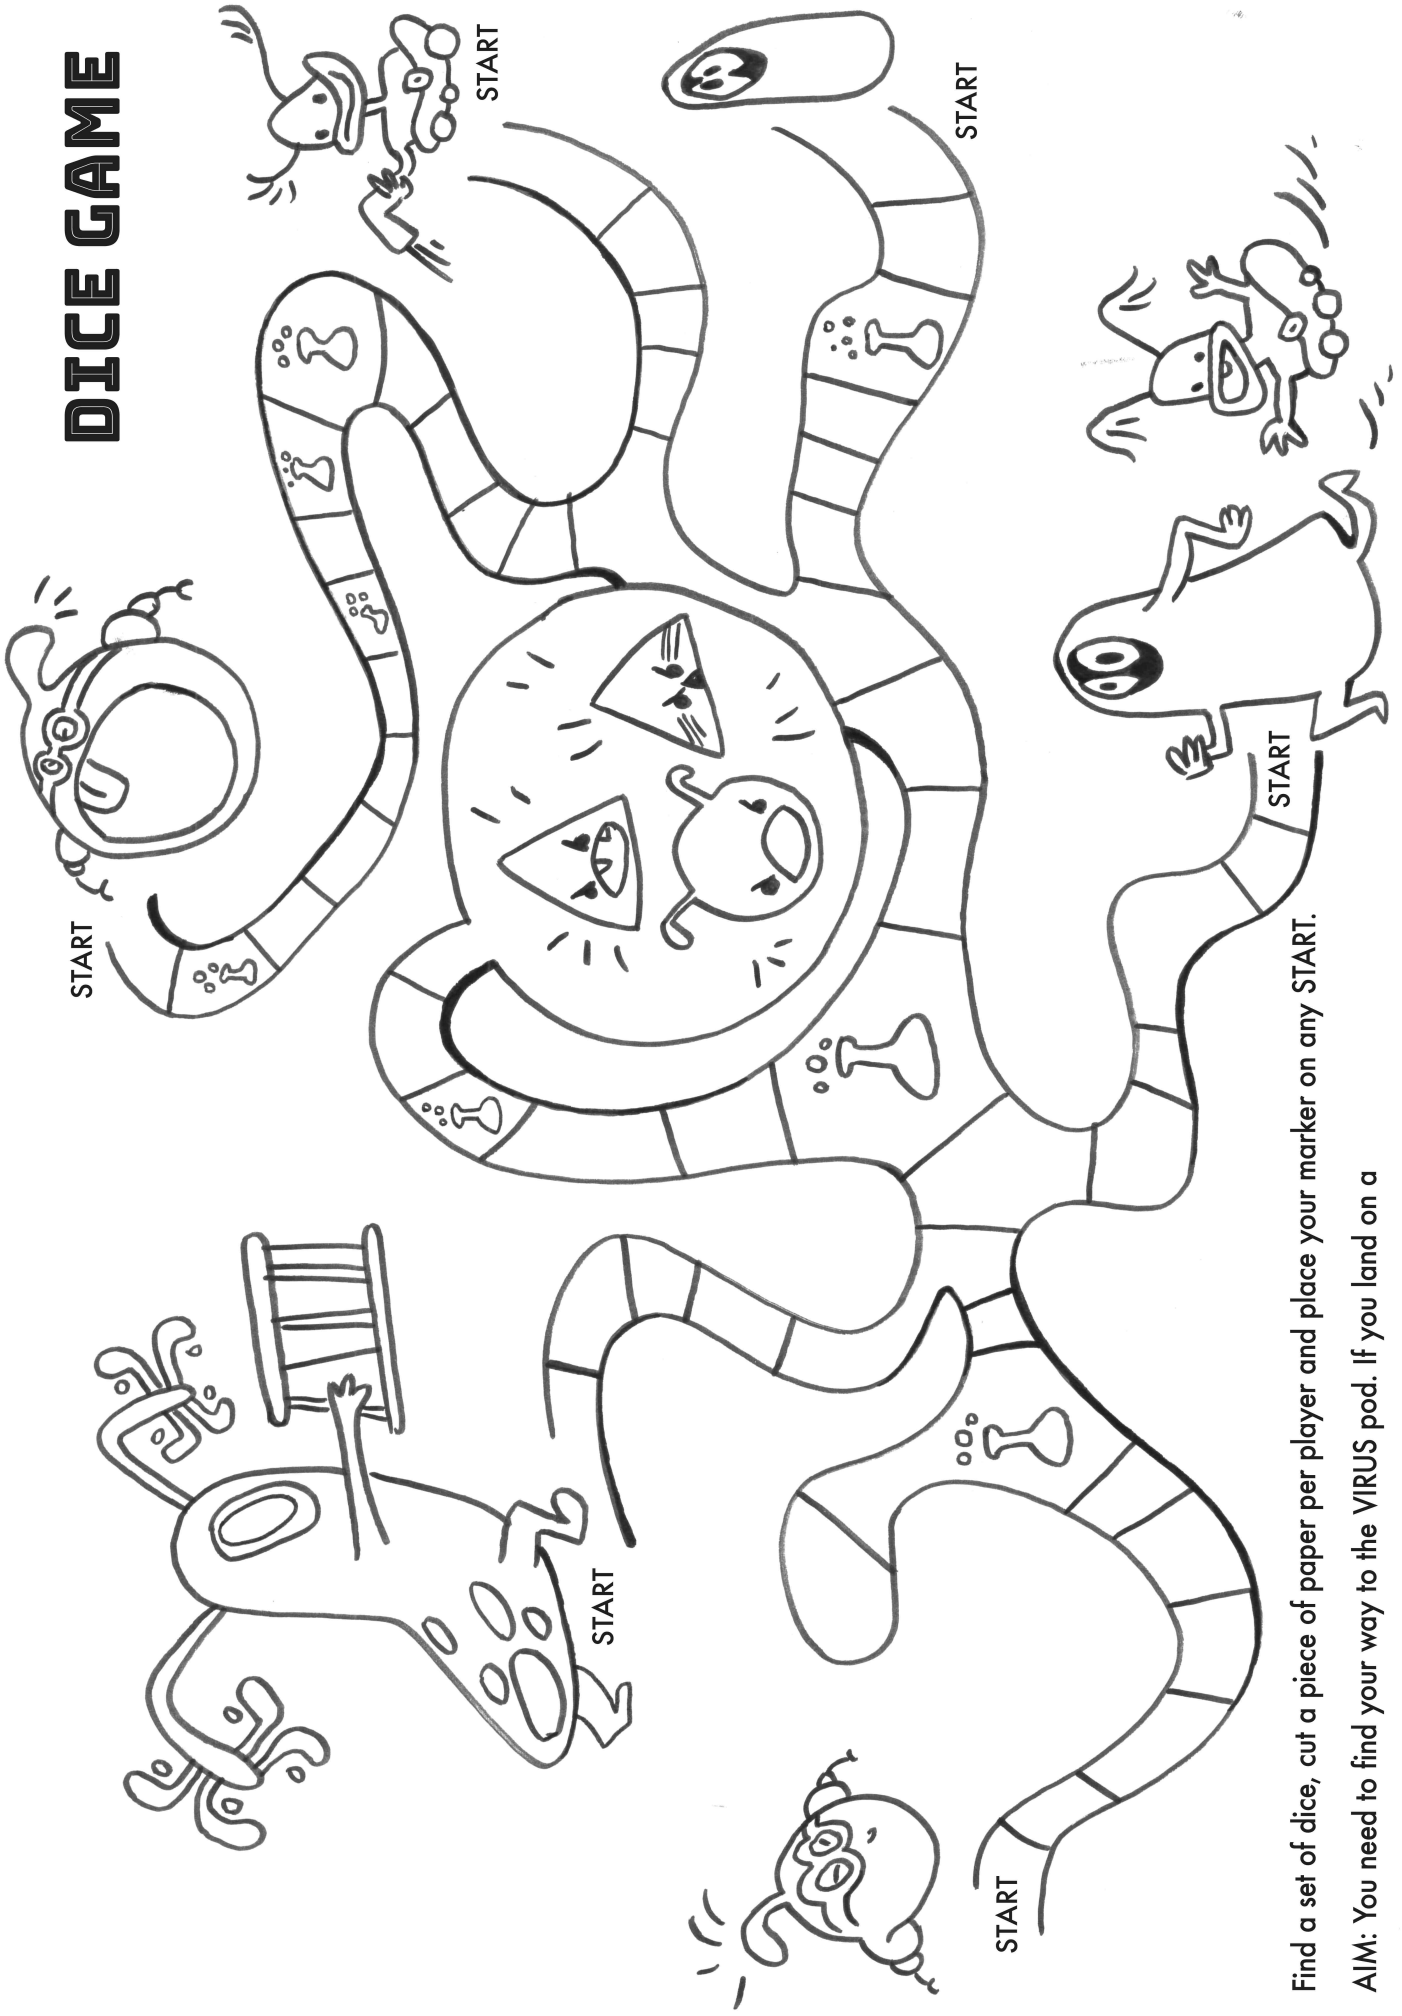

BATTLE ROBOT 1

MASQUERADES

BATTLE ROBOT 2

DICE GAME

Find a set of dice, cut a piece of paper per player and place your marker on any **START**.

AIM: You need to find your way to the **VIRUS** pod. If you land on a

VACCINE cell, you can roll the dice again. Do not forget to **COLOUR IN** your game!
